

Cozero & Sunhat

Together, we streamline climate management and CSRD reporting

Automated reporting

- Automated reporting of "Climate Change" data points as part of CSRD ESRS E1 compliance
- Responses to rating requests, questionnaires and more powered by climate data
- Automated updating of indicators and connected computations
- Pre-filling reporting templates for ESRS E1

Best-of-breed

- Combining advanced reporting and climate management software creates a more resilient system approach
- Both companies recognized as leaders in DE

No double work

- Sunhat streamlines data input for Cozero
- Cozero transfers data back to Sunhat for reporting
